	The confirmation of Pisarev in his position of MVD chief may be considered an indication that the other names mentioned were also correct.  It is possible that juard companies were furnished at three-month intervals from the Droegen barracks installation quartering head-quarters units of the Second Eds Mecz Army, from Neuruppin, where elements of the 12th Eds Tank Div are stationed, and from Neustrelitz, where elements of the 9th Eds Tank Div are located. It is doubted, howevery that the guard company should have been relieved also from Rechlin, since only AF units are known to be stationed there.	50X1-HUM
